### **PROPERTY MAINTENANCE continued:**

**Lawn Care:** Lawns are mowed, edged, and trimmed, by an outside company hired by the Association. These services are provided weekly during the prime growing season (April 1 – October 31) and every other week during the rest of the year.

Detailing (trimming/pruning or ornamental shrubs, bushes, and trees u to 10 feet tall) is done by the lawn care contractor for each yard every 4 weeks. Application of weed control and lawn pest control products and fertilizer is done every 60 days. Compass Pointe uses a reflector system for marking areas not to be trimmed or sprayed.

**Tree Trimming:** Homeowners are responsible for maintaining all trees on their property.

**Irrigation System:** The irrigation system is a community-wide system of reclaimed water that is controlled by the Association and managed by the Irrigation Manager. The system is divided into zones. Individual properties cannot be isolated to run individually. In general, the system runs twice a week during overnight hours during the growing season, and once a week when the grass is dormant. There is a rain sensor on the system so that it will not run at the normally scheduled times if we have received a significant amount of rain.

### **EXTERIOR HOUSE MAINTENANCE:**

It is the responsibility of each homeowner to maintain their own property in accordance with the Covenants and Restrictions of Compass Pointe.

**Homeowners are responsible for exterior painting, roofing, cleaning and maintenance of soffits and gutters, cleaning of driveways and individual walkways, cleaning and repair of roofing materials, and other exterior home maintenance.**

Regulation of property maintenance assists in maintaining housing values in our neighborhood.
